

# Hide-A-Hose Retractable Hose System

## Convenient cleaning for easy living

Hide-A-Hose Retractable Hose System takes central vacuum technology to the next level by eliminating the hassle of the hose. Hide-A-Hose stores up to 50 feet of hose inside the wall until you need it. Simply pull out the length you need, connect a cleaning tool and go! Once you're finished, the power of the central vacuum will retract the hose back into the wall and out of sight.

Never deal with bulky hoses again- one 50 foot Hide-A-Hose can cover 1,800-2,200 feet!

### Dirt Devil®: A Powerful Partner

Pair Hide-A-Hose with a Dirt Devil® Central Vacuum System to get maximum cleaning performance. Dirt Devil® features Cyclonic Filtration Technology® to deliver the consistent sustained airflow and vacuum power needed to operate Hide-A-Hose.

*Make any home more convenient.  
A central vacuum with Hide-A-Hose  
can be installed in both new  
or existing homes.*

# Take central vacuum power to the max ...

The MaxAir® Central Vacuum was designed specifically for Hide-a-Hose systems. MaxAir ramps up cleaning power with a unique dual motor design that actually pushes air through the system. It removes 100% of vacuumed dirt, dust and allergens from homes without bags or permanent filters. MaxAir has a smaller footprint than other power units and tucks away out of site in a basement or garage. It's simply the most powerful central vacuum of its size. MaxAir comes complete with a Limited Lifetime Warranty ensuring high-performance cleaning year after year.

## ... with better health

Dirt Devil® is a valuable addition to a healthier home. Leading organizations like the U.S. EPA, the American Lung Association and the Healthy Home Institute are talking about the health benefits of central vacuums. According to the Healthy Home Institute, "The healthiest type of vacuum to operate is a central vacuum that is vented outdoors." In addition, many green building programs recommend or require central vacuums.

## ... more accessories

For reliable, deep-cleaning vacuum performance of carpeted areas and rugs, Hide-A-Hose systems use TurboCat or TurboCat Zoom air-driven powerheads. Also available are a wide variety of cleaning kits and accessories specifically designed for today's home furnishings and hard surface flooring.

## ... and an outstanding warranty

Hide-A-Hose, Inc. warrants that the hose, fittings, and valves, when used for household purposes, will be free from defects in materials and workmanship for a period of three (3) years from the date of the initial consumer purchase.
